SUMMARY

Cloud Computing graduate with hands-on experience in Amazon Web Services (AWS), including Elastic Compute Cloud (EC2) and Simple Storage Service (S3). Seeking an entry-level Cloud or IT Support role to apply skills in system support, troubleshooting, and cloud operations while contributing to reliable and efficient business services.

TECHNICAL SKILLS

- Cloud Infrastructure Management (AWS VPC, Security Groups)
- Skilled in Windows OS
- Proficient with Visual Studio Code & Sublime Text
- Cloud Infrastructure Management
- SQL & NoSQL Database Management
- AWS VPC
- PHP Programming & Backend Development
- Front-End Development (HTML, CSS, JavaScript)
- Security Groups

EDUCATION

- **BCA**

Maharashtra State Board | 71.33% |

- **HSC**

Maharashtra State Board | 66% |

- **SSC**

Maharashtra State Board | 86.20%

PROJECT

1. AWS EC2 Web Hosting Project

- **Launched and managed** a web application on an AWS EC2 instance using Linux and Apache server.
- **Set up** security groups, key pairs, and public access to make the application available on the internet.
- **Performed server configuration and application deployment** in a cloud environment.

---

2. Static Website Hosting on AWS S3

- **Published** a static website using Amazon S3 Static Website Hosting.

- **Applied** bucket policy and public permissions to enable internet accessibility.
- **Demonstrated** cost-effective website hosting using cloud storage services.

---

3. AWS 2-Tier Architecture Project (EC2, RDS, S3)

- **Designed and implemented** a 2-Tier cloud architecture with EC2 as the web server and Amazon RDS as the database layer.
- **Integrated** Amazon S3 for storing application images and files.
- **Established** secure connectivity between application and database using VPC networking and security groups.
